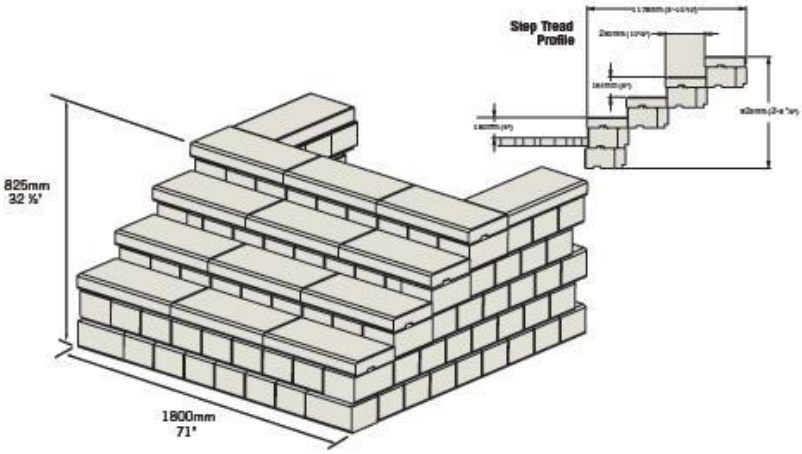
## Steps



1. Create steps with the Standard units.
2. Step riser is 6òtread is 300mm 11.81ò
3. Distribute cut pieces evenly across width of each step.
4. More steps could be added (using the same pattern) by increasing dimensions at the bottom in both directions.
5. Backfill with compacted aggregate as each course is added.
6. Adhere each Coping unit to previous layer using concrete adhesive.
7. It may be necessary to remove a portion of each unitôs tongue to overlap properly at corner locations.
8. Create step tread using either 1ôor 2ôcoping unit.
9. Handrails may be required for certain style steps.
